

## News Release

December 30, 2019

### **Boissevain Assisted Living Facility reaches \$2 million** *Ready to accept tenant applications*

Southwest Senior Housing Inc. (SSHI) has reached their initial fundraising goal of \$2 million and beginning January 15 will be accepting tenant applications for the Assisted Living Facility.

In summer 2019, Southwest Senior Housing Inc. and the Municipality of Boissevain-Morton issued a Request for Proposal for Design Build Services, resulting in Gordon Turner Construction being the successful proponent. Fundraising \$2 million was imperative to securing financing for this project, and SSHI is thrilled to announce they have reached this goal with the help of numerous generous donors. As a non-profit, fundraising will be ongoing to keep the facility affordable and sustainable. Construction of the new facility is expected to begin in spring 2020, with anticipated completion in summer of 2021.

It's imperative to put your name in if you are considering an assisted living facility in the next 5 years. Beginning Wednesday, January 15, 2020, from 10:00am to 3:00 pm, at Boissevain Council Chambers, potential residents can select preferred suite on first come first served basis with \$1,000 refundable deposit. Application form along with deposit may be mailed or dropped off beginning January 15, 2020 at 10:00 am. Application form available at [www.boissevain.ca](http://www.boissevain.ca) or the Municipal Office. \*Applications will not be received prior to January 15.
